

Francesco Cruciani

DEVELOPER

WORK EXPERIENCE

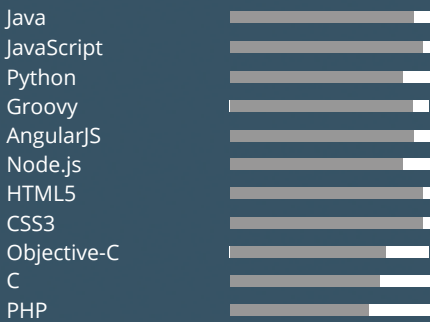

ABOUT ME

I'm an enthusiast developer who loves discovering cutting-edge technologies, learn and use all the expertise to do my job and give birth to my ideas in the best and creative way possible, driving improvements throughout the entire software development lifecycle. I keep myself constantly updated on the web, I like to prototype software and hardware, pair programming and the most important thing for me is team work. My goal is to work in a challenging environment, to have fun and to always improve myself as a worker and as a person.
